## THEME

Bharatiya Bhashas are living symbols of culture. They are not only mediums of communication but also powerful instruments for the expression of thought, emotion and identity. Each language encapsulates the heritage, traditions and world view of its speakers. In an increasingly globalized world, multilingualism has become a valuable asset-enhancing career prospects. The conference addresses themes such as language contact and convergence, multilingualism, script evolution and the role of Bhartaiya Bhashas in building social cohesion and interlingual harmony. The idea of Bharatiya Bhasha Pariwar is an antidote for the colonial and post colonial venoms poured into our mind and thinking. Paths are many, destination is one. Regions are many, Bharat is one. Ragas are many, Bhakti is one. Let us observe the 'Sahaj Sambandh' that exists in all the Indian languages spoken in the temples, homes, shrines and street corners across Bharat.
